13.2.3 Students who obtain a CWA of less than 85.00, but who have clearly performed at an outstanding level in comparison to the majority of other students in the course may also be granted an award with distinction if 10% or more of students in the relevant course cohort have not already been granted an award with distinction.

13.2.4 If 10% or more of the students in the relevant course cohort have not already been granted an award with distinction, the following provisions will be used to determine whether a student or students who have obtained a CWA of under 85.00 may be considered for an award with distinction:

- The result or results obtained by the student(s) will generally be in the top ten percent of results attained by the relevant course cohort.
- The result or results obtained by the student(s) will be clearly differentiable and higher than the next ranked student or students (i.e. there may be a discernible gap between the results for students granted an award with distinction and those that are not).

13.2.5 Any decision to grant an award with distinction to a student, who has attained a CWA of less than 85.00, will be made by the Board of Examiners.

13.2.6 It is the responsibility of the Head of School to recommend to the Board of Examiners which students with a CWA of less than 85.00, whose performance is clearly superior to the performance of most other students, may be granted an award with distinction. The Head of School will clearly document the reasons for the decision and outline how the student or students have demonstrated outstanding performance within their course.

13.2.7 The Board of Examiners is responsible for ensuring consistency in the selection of any students who achieve a CWA of less than 85.00 and are granted an award with distinction.

13.2.8 Normally, a student who achieves a CWA of less than 75.00 will not be considered for an award with distinction.

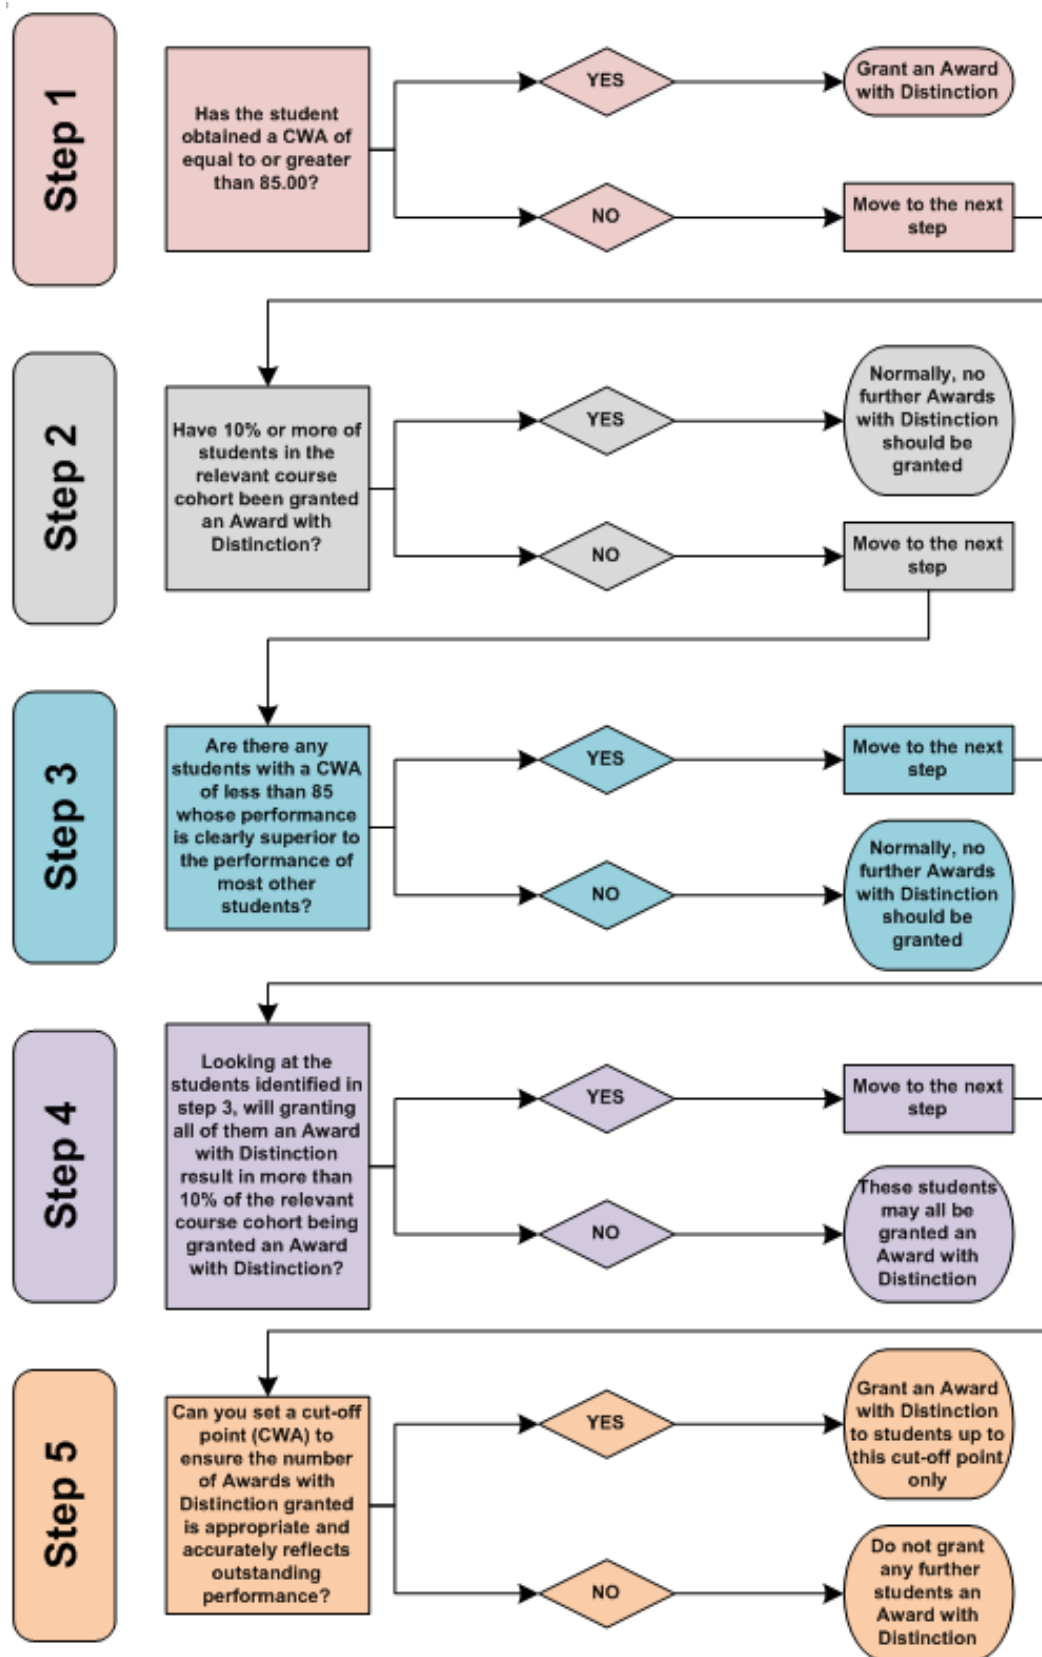

Exclusion Conditions

13.2.9 A student may be excluded from being granted an award with distinction at the discretion of the School, where the student’s results contain a conceded pass or a pass after supplementary assessment. If exclusion of students for any of these reasons is standard practice, these arrangements will be communicated to students in the course.

13.2.10 If a student has been found guilty of a student discipline offence, the student is ineligible to be granted an award with distinction.
